Skin Enhancement

- JetPeel **skin enhancement** treatment focuses on **anti-aging**, **skin rejuvenation** and **regenerative** treatments
- JetPeel improves skin appearance without changes to its basic nature
- JetPeel treatments lead to **fresher skin**, **delayed signs of aging**, and **youthful appearance** with natural and long-lasting results

Skin Concerns

JetPeel skin enhancement benefits many different skin concerns:

- Acne-prone skin
- Oily and greasy skin
- Dry skin
- Loose skin
- Gray-toned skin
- Loose skin
- Rosacea
- Excessive wrinkles
- Scar refinement
- Stretch marks
- Hair loss
- Sensitive & couperose skin

Micro-circulation Improvement

The pressure energy generated from JetPeel allows for the performance of a lymphatic massage for the entire body.

The improved blood flow due to the lymphatic massage means:

- stimulated and regenerated skin cells
- detoxified skin tissue
- reduced swelling
- brighter and tighter skin
- improved skin appearance

Skin Resurfacing

- JetPeel treatments dramatically improve the skin's appearance in just one session
- Using the **right combination of solutions and treatment steps** you can treat several skin imperfection in the same treatment session
- **Reduce wrinkles**, remove unwanted **pigmentation** and overall skin **rejuvenation**. Treatments are also beneficial for **improving acne, reducing blackheads, large pores improvement, tightening the skin**, and correcting skin imperfections on the **entire face and** other parts of the **body**.

Improve Skin Health

- Improve skin health with **Lymphatic massage, exfoliation, infusion and booster infusion**
- To improve the skin health we need to **improve skin hydration**
- **70% of our dermis is made up of water** which acts as a "large water container" for the skin needs and for its vital function
- Hydration is essential for **firm, heathy, radiant skin** and to **maintain collagen and elastin fibers integrity**

Anti-Inflammatory & Skin Saver

- JetPeel cools down inflammatory skin states by **calming the irritated tissues**. It helps to **heal** the skin, and assists in **recovery of very sensitive** skin states such as couperose and rosacea
- JetPeel can be used **immediately after laser treatments and aesthetic procedures** that cause skin irritation in order to cool and soothe the skin

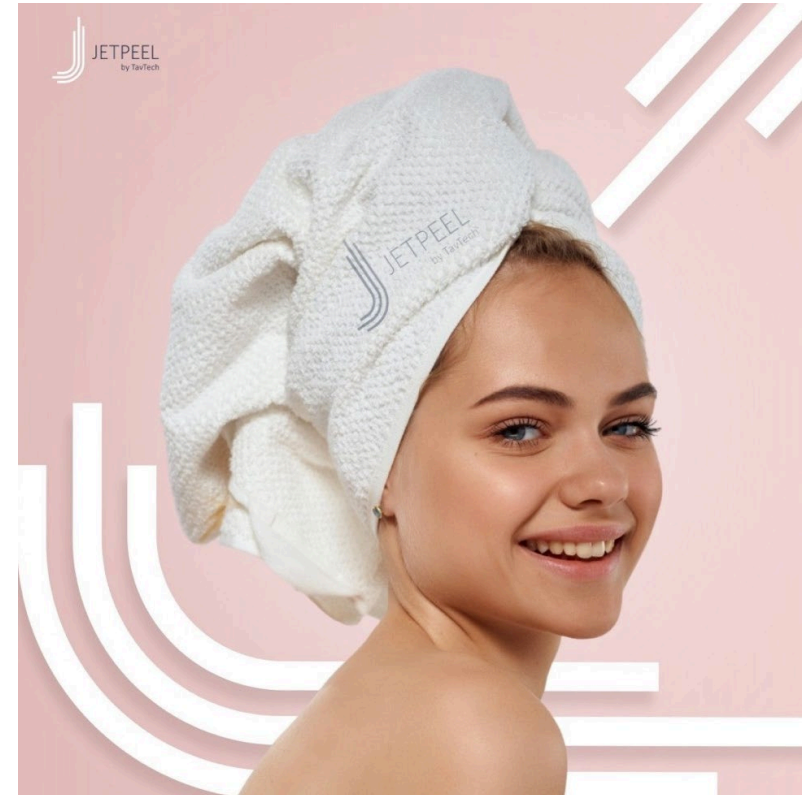

Clean Up Harmful Substances & Bacteria

- The high velocity (720 km/hr; 450 miles/hr) jet stream cleans the skin surface from potential harmful substances including bacteria
- The **benefits** are **deeply cleansing the skin surface** and **pores, removing impurities** and **fighting against bacterial and fungal pathogens** that could penetrate deep into the skin and create damage

Safe Exfoliation

- JetPeel exfoliates the **dead skin cells on the stratum corneum** without physically peeling the skin, **without abrasion**, without **discomfort**, and without skin **irritation** or **pain**. Suitable to all skin types even the most sensitive skin, and suitable all-year-round
- The exfoliation with JetPeel can be combined with **mechanical + chemical peeling** at 45° angle or can be infused into the skin at 90° angle for deep skin regeneration

Needle-Free Infusion

- **No needles, no incisions, no pain, non-invasive and pleasant**, giving the patient a relaxing treatment that requires no recovery or healing and delivers visible same-day results
- JetPeel infusion takes **aesthetic and dermatological care** to new levels of excellence and comfort

Skin Volumizing

- The precise and accurate jet stream booster infusion and **exclusive active ingredients** awake the natural rejuvenating substances
- **Stimulate fibroblasts (rejuvenating cells)** to boost their production of collagen (firmness) elastin (suppleness), and hyaluronic acid (volume and hydration), naturally present in our skin
- With this booster infusion technique it is possible to **fill in lines** and creases, filling out **thin or wrinkled lips, volumize cheeks, lift the midface**, and improve **appearance of nasolabial folds** and jowls

Effective Results in Trichology

- The power of the jet stream deep cleanses and exfoliates the scalp
- **Effective delivery** of active ingredients to counteract **hair loss** and **strengthen the hair bulb**
- Invigorating **scalp massage** that promotes micro-circulation **strengthening the hair follicles**

Body Regeneration & Rejuvenation

- Due to its tissue regenerative capacity it is possible to treat body areas where you want to **counteract skin laxity**
- You can **improve the skin elasticity on the inner thigh, inner arms, hands, the abdomen area** specially after pregnancy or weight loss
- Is possible to **improve stretch marks** and **scars**
- A JetPeel **Body Lymphatic massage** improves the micro-circulation, detoxing the skin, and reducing the swelling in different body areas

Combination Treatments: Before & After Other Aesthetic Procedures

- **Regenerate** and **hydrate** the skin before Laser and RF, thus enhancing their effectiveness
- Performing **JetPeel treatment** 3 weeks after injecting with Botulinim Toxin **prolongs the Botox effect**
- **Combination** therapy allows **offering personalized treatments** and **solutions** that no single technology can achieve

Aesthetic Enhancement: Filling The Gap In Aesthetic Procedures

JetPeel fills the gap between:

- **Skin Correction** such as injections or other invasive aesthetic and ablative (tissue damaging) procedures which are usually painful, expensive, and result in downtime, and;
- **Topical Care** which does not significantly contribute to real sustainable improvement.

Aesthetic Clinic Owners Love JetPeel

- **Safe, effective and pleasant treatment sessions**

Non-invasive, non-ablative, non-contact, needle-free, with zero skin print. The patient enjoys a pleasant experience with no damage or healing required.

- **Scientifically sound**

Clinically proven visible result on the same day, for high customer satisfaction

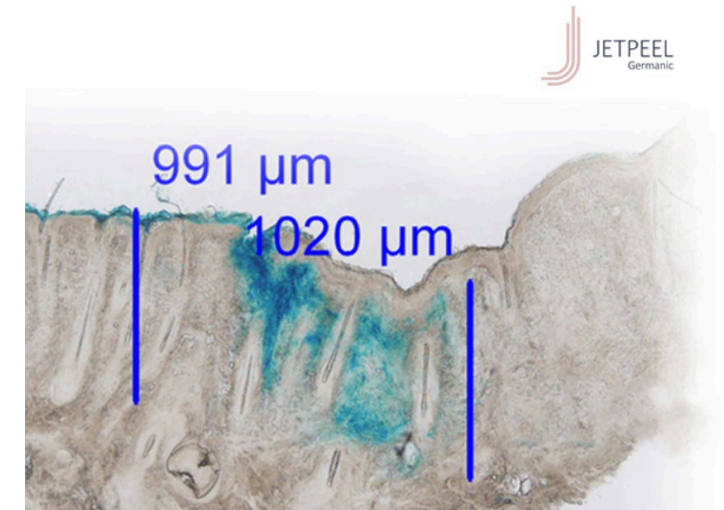

- **One device, multiple applications**

In conjunction with various JetPeel handpieces and Jet Solutions, the JetPro device provides a wide range of treatment options

- **Fast ROI, drives business success**

Investment in a JetPro device delivers satisfied and returning customers, excellent customer recommendations, and a fast ROI

The JetPeel™ Studies

Be The Best Version Of Yourself

THE VERSATILITY OF JETPEEL

- Exfoliate
- Oxygenate
- Tighten
- Brighten
- Stimulate collagen & elastin production
- Eliminate skin imperfections
- Improve the skin texture
- Plump & hydrate the skin
- Restore skin volume
- Improve skin regeneration
- Tighten enlarged pores
- Relieve puffiness around the eyes
