

Feels More Beautiful Than Ever

Welcome to the world of JetCare treatment solutions that take JetPeel by TavTech to the next level.

JetPeel's entire line of cosmetic solutions has been renewed, with each formula improved and upgraded with the latest cutting-edge materials and ingredients, all from the highest quality cosmetic suppliers, and all especially suited to JetPeel's unique and patented handpieces, and to its enduring iconic jet pressure-energy device.

Concentrations have been improved to optimally treat a wide range of skin types, body areas and customer concerns.

JetPeel brings this new and vastly improved line of JetCare solutions to its customers after many months of R&D and testing to ensure that it is the most compatible line of solutions to the JetPeel handpieces and devices, and after ensuring enhanced performance.

Developed exclusively by TavTech in conjunction with a leading, renowned cosmetics formulation laboratory, JetCare products deliver powerfully effective JetPeel treatments in the clinic, spa or cosmetic salon, and are the only solutions sanctioned and approved by TavTech for use with its handpieces and devices.

JetCare by TavTech is the first choice for cosmeticians and specialists worldwide, and the only choice for the ultimate treatment experience by JetPeel.

With JetCare formulas, the skin feels smoother, brighter, and more beautiful than ever before.

The Treatment Sequence

STEP 01

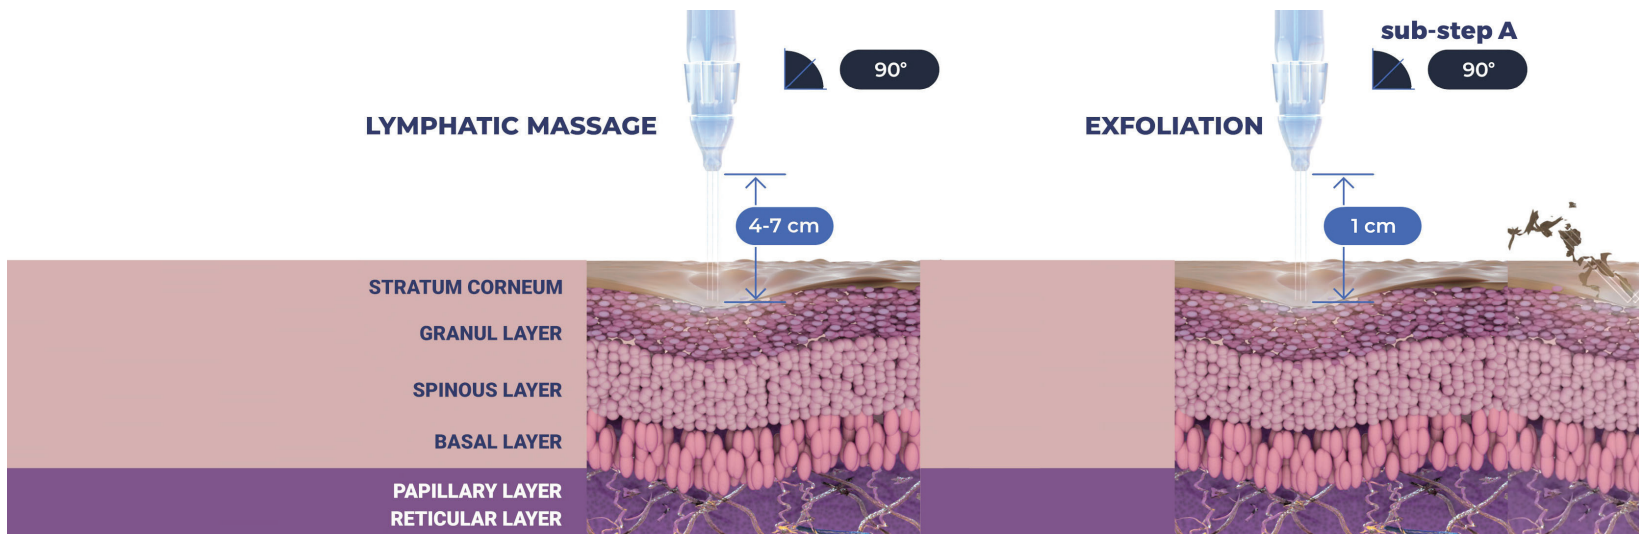

LYMPHATIC MASSAGE

Relaxing massage for detoxifying the skin and stimulating micro-circulation.

STEP 02

EXFOLIATION

Preps the skin to receive the nourishment from the following infusion treatment.

STEP 03

INFUSION

Deep, effective delivery of active ingredients into the skin.

STEP 04

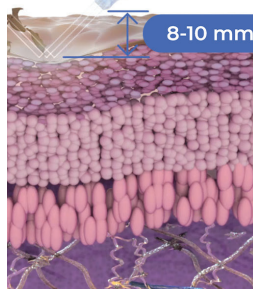

BOOSTER INFUSION

Post-infusion step to amplify the treatment result.

sub-step B

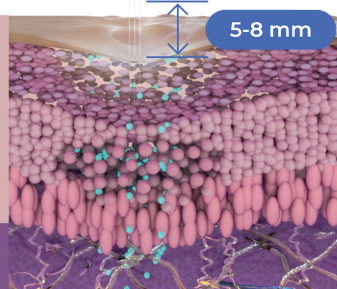

8-10 mm

INFUSION

5-8 mm

EPIDERMIS
30 - 200µm

DERMIS
1000 - 4000µm

JetCareHYDRO

Powerful JetPeel treatments begin with JetCare Hydro

All JetPeel sessions are initiated with JetCare Hydro. This gentle water-based solution is formulated especially for the initial lymphatic massage, and to prep the skin for the deeper JetCare treatments which follow.

Prepare the skin for beautiful results

Most of our facial muscles are not usually used. The JetPeel lymphatic massage with JetCare Hydro effectively stimulates facial muscles and blood microcirculation for a young, healthy appearance. The JetCare Hydro comprises a very mild concentration of sodium chloride solution, combined with soothing organic aloe vera, and reinforced with a relatively high concentration of hyaluronic acid.

Key ingredients

Organic Aloe Vera

This enduring extract, known for its calming effect, is a significant ingredient in JetCare Hydro. Aloe Vera is proven to be an antioxidant emollient that instantly softens and soothes the skin, providing antimicrobial benefits.

Hyaluronic Acid

This unique formulation contains low-molecular HA that allows for improved penetration and impact within the skin. The relatively high concentration of HA in this ingredient boosts moisture, helps to protect the skin against dehydration and ensures high-performance while supporting a gentle, yet powerful lymphatic massage.

Used for indications:

Lymphatic Massage, All Indications.

Treatment guideline numbers:

All

The Renewal Care Series

The ultimate exfoliating treatment line with AHA's and BHA's, specially formulated in various concentrations for the needs of all skin types.

Advanced, updated solutions refine the skin for renewed glow and radiance.

Glycolic Acid Series
Mandelic & Salicylic

Glycolic Acid Series

Personalized exfoliation – Suited to your skin

JC-RCGA Series

Coming after the lymphatic massage, exfoliation is the second step in the JetPeel treatment regimen. Exfoliation rids the skin of debris and prepares it for the next step of nourishing infusion.

Prepare the skin for beautiful results

The natural pH level of the skin is 4.7, and it plays a vital role in helping to protect the surface and keep skin resilient in the face of detrimental environmental effects. The skin has a built-in protective film known as the acid mantle. Keeping the skin's acidic pH at the right level is vital to maintaining balance of the delicate microbiome of the skin, creating conditions that discourage the growth of harmful bacteria and support good bacteria to flourish.

The most effective exfoliating products are known to have a pH between 3.2 to 3.9. This Renewal Care series is adjusted to pH of 3.5, placing it in the ideal range for highly effective exfoliation without causing any burning or damaging effects.

Key ingredients

Glycolic Acid

Glycolic Acid is an AHA which is an exfoliant that helps remove dead skin layers and refine the surface of the skin. This may have the effect of smoothing fine lines for a more youthful impression. This series comes in 3 different glycolic acid concentrations: 5%, 10%, and 16%; each suited to exfoliate different skin types and conditions, allowing the caregiver to personalize the concentration.

Organic Aloe Vera

This enduring extract, known for its calming effect, is a significant ingredient in the Renewal Care Glycolic Acid series. Aloe Vera is proven to be an antioxidant emollient that instantly softens and soothes the skin, providing antimicrobial benefits.

Pro-vitamin B5 - Panthenol

D-Panthenol helps nourish and add vital moisture to the skin, by sealing in hydration, boosting the skin barrier, and helping to rejuvenate and revitalize skin cells for an overall age-defying effect.

5% Glycolic Acid

JC-RCGA5

Gentle exfoliation for delicate and normal skin

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation, Scalp & Hair.

Treatment guideline numbers:

1, 5, 9, 13, 17, 21, 25, 29, Scalp & Hair.

10% Glycolic Acid

JC-RCGA10

Medium exfoliating for normal to oily skin

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation, Scalp & Hair.

Treatment guideline numbers:

2, 6, 10, 14, 18, 22, 26, 30, Scalp & Hair.

16% Glycolic Acid

JC-RCGA16

Strong exfoliation for mature skin

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation.

Treatment guideline numbers:

3, 7, 11, 15, 19, 23, 27, 31.

Mandelic & Salicylic

The ultimate gentle exfoliating experience

JC-RCMS

The gentlest way to achieve a deep exfoliating and resurfacing effect, this solution is enriched with a blend of AHA & BHA that form the ideal combination for maximum benefit. The result is radiant, fresher, and more vibrant skin.

AHA & BHA in perfect combination

A combination of AHA and BHA is an effective way to exfoliate and rejuvenate the skin by dislodging dirt and impurities and restoring a look of cleansed smoothness. The Renewal Care Mandelic & Salicylic complex has been specially developed for skin that is prone to sensitivity.

Key ingredients

Mandelic Acid (4%)

Extracted from bitter almonds, Mandelic Acid is a gentler AHA, providing high performance exfoliation, unclogging the pores, leaving the skin looking brighter and clearer. Also known as an effective anti-aging ingredient, Mandelic Acid helps to promote a more youthful, even, and smooth appearance.

Salicylic Acid (2%)

This BHA is an excellent exfoliator, suitable for oily skin that is prone to blemishes. The refining action helps remove the outer skin layers and excess oil, softening clogged pores for a clear, smooth sensation. Salicylic Acid is also a calming agent that helps soothe stressed skin, leaving a pleasant feeling even while undergoing exfoliation.

Fruit Extract AHA

This powerful natural AHA blend is a highly effective exfoliating ingredient, working to refine the skin for a smoother and softer sensation. It also helps promote absorption of the JetCare solutions used in the following steps of the JetCare treatment regimen.

Other AHAs

This solution is enriched with a blend of several other important, exfoliating AHAs, including Malic (1%), Glycolic (0.7%), and Lactic (0.7%) Acids.

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne,
Post-Acne, Couperose & Sensitive Skin,
Lightening & Pigmentation.

Treatment guideline numbers:

4, 8, 12, 16, 20, 24, 28, 32.

The Anti-Aging Care Series

Take anti-aging treatment to the next level with the Anti-Aging Care series, innovatively formulated with different molecular size HA, patented bio-peptides and unique plant extracts to regenerate skin and restore the sensation of youth and vitality.

**Wide Range Hyaluronic Acid
Peptide Complex
Witch Hazel & Peptides**

Wide Range Hyaluronic Acid

Delivers smoothing & firming effects

Deliver the instant, long lasting effects of hyaluronic acid (HA), with a unique wide-range complex containing five molecular weights of HA which enable simultaneous infusion into different layers of the skin. Combined with select peptides, this product is highly versatile and powerful as a basic component in the JetCare line.

Wide range molecular weight hyaluronic acid formula gets results

The best effects of HA are achieved by combining several molecular weights that can penetrate to the different layers of the skin. Low- and medium-weight HA molecules can go deeper into the skin, increasing hydration over time. High-weight HA molecules lie on the surface level, for instant hydration. This unique formula combines five different HA molecular weights for the optimal treatment and results.

Key ingredients

Hyaluronic Acid

- 5-20 kDa HA: replenishes and rejuvenates the skin from the inside at deeper layers
- 20-50 kDa HA: enables penetration that boosts the biomechanical properties and firmness of the skin
- 100-300 kDa HA: reinforces the skin's natural defenses and helps accelerate repair action for a smoother sensation
- 150-600 kDa HA: provides the renewal sensation of HA on the skin's surface level for immediate anti-aging effects
- 1,500-1,800 kDa HA: provides a moisturizing boost, forming an enriching film on the skin surface for a smoother appearance

Regu-age®

This synergistic blend of patented peptides and proteins demonstrates fast action anti-aging benefits. Containing purified soy and rice peptides, blended with biotech-produced yeast protein, this complex helps to boost tone and radiance.

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne,
Post-Acne, Couperose & Sensitive Skin,
Lightening & Pigmentation.

Treatment guideline numbers:

1, 2, 3, 4, 17, 18, 19, 20.

Peptide Complex

Revitalizing power to firm and restore the skin

Part of the Anti-Aging Care treatment series, the Anti-Aging Care - Peptide Complex is formulated for skin showing signs of aging and loss of elasticity. The blend of active peptide power helps to firm the skin's overall appearance for a more youthful sensation.

Concentrated peptide blend

Research shows that peptides are the essential building blocks of skin proteins, such as collagen, elastin and keratin, and that they form the foundation for firm, resilient and smooth looking skin. When the skin lacks these powerful proteins, the result can be a loose, sagging appearance and loss of texture and elasticity. This formula helps restore firmness with a unique and powerful blend of amino-rich peptides.

Key ingredients

Replexium™

A fusion of two patented skin bioavailable peptides for quick and visible wrinkle reduction and improved dermal density. The ingredient demonstrates fast action anti-aging benefits that work more rapidly than the benchmark for standard peptides.

Juveleven™

This hexapeptide is a powerful skin protector that defends the skin from the effects of sun exposure, pollution and stress. This blend of peptides is formulated as a powerful anti-aging ingredient that helps boost skin resilience and enhances the skin's natural vitality.

Pentavitin®

This 100% natural, plant-based carbohydrate complex is very similar to carbohydrates that occur in the skin, therefore having an effective binding mechanism. This ensures fast, powerful hydration, and a deep, long-lasting supply of moisture to the skin.

Regu-age®

This synergistic blend of patented peptides and proteins demonstrates fast action anti-aging benefits. Containing purified soy and rice peptides, blended with biotech-produced yeast protein, this complex helps to boost tone and radiance.

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles,
Post-Acne, Couperose & Sensitive Skin,
Lightening & Pigmentation.

Treatment guideline numbers:

5, 6, 7, 8.

Witch Hazel & Peptides

Restore even tone and radiant glow

Part of the Anti-Aging Care series, Witch Hazel & Peptides is a purifying solution for radiant complexion. Combined with selected peptides that help to fortify the skin's firmness and elasticity, Witch Hazel & Peptides is ideal for any anti-aging treatment.

The formula

The formula of choice to help purify the skin, smooth surface blemishes, and create an even, unified tone and youthful radiance. This formula has a rich concentration of witch hazel extract, a strong astringent and powerful natural calming agent that helps soothe the skin, as well as protein-boost peptides known for their firming, anti-aging impact.

Key ingredients

Witch Hazel Extract

Known as an effective astringent for all skin types, Witch Hazel Extract helps reduce the sensation of itching and redness for an even, radiant tone. This anti-aging solution contains a high concentration of Witch Hazel Extract, delivering powerful calming benefits that complements the anti-aging action of our unique peptide complex.

Regu-age®

This synergistic blend of patented peptides and proteins demonstrates fast action anti-aging benefits. Containing purified soy and rice peptides, blended with biotech-produced yeast protein, this complex helps to boost tone and radiance.

Replexium™

A fusion of two patented skin bioavailable peptides for quick and visible wrinkle reduction and improved dermal density. The ingredient demonstrates fast action anti-aging benefits that work more rapidly than the benchmark for standard peptides.

Betaine

Known for its moisturizing power and soothing properties, Betaine is a natural humectant, helping to retain hydration for enhanced skin texture and an anti-aging effect. Betaine not only boosts the skin's moisture level but also helps to protect the skin's natural barrier, so the skin remains fortified and hydrated, with a softer, smoother appearance.

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles,
Post-Acne, Couperose & Sensitive Skin,
Lightening & Pigmentation.

Treatment guideline numbers:

9, 10, 11, 12.

The Selective Care Series

Advanced formulas to treat selected skin needs, based on the most advanced materials and ingredients.

The Selective Care series especially suits these purposes and includes: smoothing, soothing, clearing, lightening and scalp & hair care.

Argireline® Complex
Lightening
Soothing
Clear
Scalp & Hair
Growth Factor

Argireline® Complex

Age-defying treatment based on natural power

A safe alternative to standard anti-aging injection treatments, Selective Care - Argireline® Complex helps reduce the appearance of fine lines and expression lines for a smoother, age-defying look.

The power of Argireline®, in high concentration

This treatment formula contains a significantly higher concentration of Argireline®, a hexapeptide that reduces the fine wrinkles and lines, and is combined with Vitamin B5 and a triple molecular weight hyaluronic acid, making it an extremely effective anti-aging treatment.

Key ingredients

Argireline®

This treatment solution is enriched with a high concentration of 5% Argireline®, an advanced natural hexapeptide that helps relax the muscles. This solution reduces the depth of fine lines, leaving a smoother, youthful appearance.

PrimalHyal™-3K

This 3 molecular-weight HA blend provides anti-aging effects at different levels of the skin. The 100-300 kDa HA component helps to fortify the skin's natural healing power and protective defenses, while the 20-50 kDa HA is the ideal size to enhance skin's biomechanical function and firmness for a toned appearance. The smallest 5-20 kDa HA component penetrates to the deeper layer of the epidermis, helping to rejuvenate from the inside.

Betaine

Known for its moisturizing power and soothing properties, Betaine is a natural humectant, helping to retain hydration for enhanced skin texture and an anti-aging effect. Betaine not only boosts the skin's moisture level but also helps to protect the skin's natural barrier, so the skin remains fortified and hydrated, with a softer, smoother appearance.

Pro-vitamin B5 – Panthenol

D-Panthenol helps nourish and add vital moisture to the skin, by sealing in hydration, boosting the skin barrier, and helping to rejuvenate and revitalize skin cells for an overall age-defying effect.

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Post-Acne.

Treatment guideline numbers:

17, 18, 19, 20.

Lightening

For a brighter, lighter appearance

Rich in advanced lightening ingredients, the Selective Care - Lightening treatment is the key to achieving the appearance of brighter skin and an even toned complexion.

Matching the desire for lighter, brighter complexion

This advanced lightening formula is rich in natural and active ingredients that help to soften the appearance of time-related spots and renew the skin's bright, light and radiant tone.

Key ingredients

Alpha-Arbutin (α -Arbutin)

Extracted from plants such as bearberries, blueberries, and cranberries, Alpha Arbutin is a skin brightening ingredient which helps to fade scars and pigmentation left behind by breakouts and sun damage. Alpha-Arbutin has been shown to act by inhibiting tyrosinase activity and melanosome maturation. It works similarly to hydroquinone, but with less irritation and melanocytotoxicity.

Beta-White (β -White)

Innovative biomimetic peptide complex demonstrates improved evenness and lightness of skin tone, and is a powerful ingredient to even skin tone and minimize discoloration.

Alpaflor® Gigawhite

A blend of seven botanical extracts from the heart of the Swiss Alps, specially selected for their natural brightening effects and radiance boosting action. Cultivated at high altitude, these plant extracts assure an even, natural, and lightened effect. Potent and natural, this unique botanical fusion is gentle for both the skin and the environment.

Stay-C®

An advanced derivative of vitamin C, Stay-C® demonstrates superior stability compared to other vitamin C ingredients. It converts rapidly to ascorbic acid, penetrating the skin to deliver a powerful glow effect. With intensive antioxidant action, this ingredient helps create improved skin tone for a more even appearance.

Used for indications:

Anti-Aging, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation.

Treatment guideline numbers:

13, 14, 15, 16.

Soothing

Soothe redness for an even, healthy appearance

Ideally formulated to relieve redness and blemishes, this treatment is based on an innovative formula with powerfully calming ingredients that hydrate, nourish and smooth uneven skin.

Calms signs of redness

A powerful infusion, Selective Care - Soothing is a blend of advanced ingredients that relieve redness for a clear, healthy look. A combination of patented bio-tech formulated ingredients with Crodarom, sourced from the Nordic regions, Selective Care - Soothing is an effective treatment for soothing blotchy skin and relieving redness for a uniform, healthy tone.

Key ingredients

Azeloglicina®

This exclusive patented ingredient is a synergetic blend of condensed azelaic acid and glycine, helping to create a powerful and purifying effect, reducing and preventing dark spots and known to subdue agitated skin, for an even complexion and glow.

Ronacare® Troxerutin

This advanced ingredient supports the healthy microcirculation of blood and lymph by regulating capillary resistance. Ronacare® Troxerutin has been shown to strongly support the fight against oxidative stress and exhibits cyto-protective ability in epithelial cells.

Crodarom Nordic Cotton

Deeply hydrating and nourishing, this advanced ingredient is adapted from cottonsedge, a native plant of the Nordic region, with highly astringent and softening properties ideal for skin that needs soothing and calming action.

Organic Aloe Vera

This enduring extract, known for its calming effect, is a significant ingredient in Selective care - Soothing. Aloe Vera is proven to be an antioxidant emollient that instantly softens and soothes the skin, providing antimicrobial benefits.

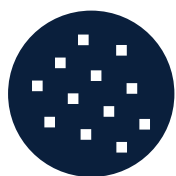

Used for indications:

Couperose & Sensitive Skin.

Treatment guideline numbers:

21, 22, 23, 24.

Clear

A purifying & balancing solution for smooth, even skin

Specially formulated to achieve clear skin, this solution is rich in Omega Hydroxy Acids and Salicylic Acid that help smooth the skin surface and purify clogged pores for an even appearance.

Selected ingredients for clear skin

Selective Care - Clear is a unique formulation combining several ingredients renowned for their purifying and smoothing actions that clears the skin. The solution contains a blend of Omega Hydroxy Acid and Beta Hydroxy Acid (BHA), Vitamin B derivative and an advanced lipopeptide component for a clear, clean and fresh appearance

Key ingredients

Salicylic acid

This BHA is an anti-irritant, having the ability to soothe stressed skin, reduce redness and works to calm breakouts on skin. It is also a keratolytic agent, therefore an excellent exfoliator. It helps remove excess oil, softening clogged pores for a clear, smooth sensation. Salicylic Acid is also a calming agent that helps soothe stressed skin.

Acnacidol™ - 10-HDA

This omega-hydroxy acid is naturally derived from Royal Jelly, nutrient-rich honeybee secretions known to help smooth and repair the skin. A gentle yet powerful clarifying ingredient that acts as a skin balancing agent, helping to create a clear, even complexion.

Neutrazen™

Based on three amino acids, this advanced biomimetic lipopeptide ingredient is formulated to soothe irritated skin and helps maintain the skin's normal sensitivity threshold. It provides vital calming action that helps promote a healthy look of clear, beautiful skin.

Niacinamide

One of the two forms of vitamin B₃, Niacinamide is rich in free-radical fighting antioxidants and rapidly absorbed by the skin, renowned for its protective moisturizing properties. It helps combat signs of aging and tighten the skin's tone while helping to prevent damage from external sources.

Used for indications:

Acne.

Treatment guideline numbers:

25, 26, 27, 28.

Scalp & Hair

Rejuvenates scalp and hair for a full, rich head

The ultimate JetCare treatment for men and women, this product is formulated with innovative targeted ingredients designed to rejuvenate the scalp and create the conditions for enhanced volume.

Rejuvenates scalp, inducing lush hair

The Selective Care - Scalp & Hair complex is a synergy of nourishing, and renewing ingredients, selected for their advanced scalp and hair rejuvenation impact. In conjunction with the JetPeel jet pressure energy effect, the scalp and hair receive enhanced galvanizing power to create a youthful look.

Key ingredients

Redensyl™

Rich in amino acids and antioxidants, this anti-aging ingredient supports powerful delivery of nourishing and rejuvenating components to the scalp, enhancing conditions for healthier hair.

Biomimetic peptide - Capixyl™

This advanced ingredient is a synergistic blend of peptide and red clover extract rich in Biochanin A, clinically proven to help create thicker, fuller and healthier hair. This powerful mix helps provide an effective anti-aging effect on the scalp and hair for men and women alike.

RootBioTec™

RootBioTec™ results from a novel technique to produce high amounts of valuable secondary metabolites of basil in bioreactors. This unique technology is a type of plant tissue culture that is used to produce high quality phytogetic compounds with great nourishing value.

Vitamin B Derivatives Combination

Selective Care - Scalp & Hair is enhanced with a blend of antioxidant-rich Vitamin B derivatives, including niacinamide (Vitamin B3), panthenol (Pro Vitamin B5) and biotin (Vitamin B7), selected for their scalp invigorating and nourishing effects.

Used for indications:

Scalp & Hair.

Treatment guideline numbers:

Scalp and Hair.

Growth Factor

The next frontier in anti-aging treatment

Based on advanced skin rejuvenation technology, this JetCare anti-aging treatment harnesses the power of growth factors that help fight the effects of time and create a look of elastic and youthful skin.

Next generation skin rejuvenation

Selective Care - Growth Factor is a top-of-the-line treatment complex enriched with Epidermal Growth Factor (EGF) that is known to stimulate powerful anti-aging effects, enhancing moisture and elasticity, and reducing wrinkles. A state-of-the-art cosmetic ingredient, EGF blends with other powerful age-defying components to deliver truly outstanding results.

Key ingredients

BioPlacenta

Modern technology has brought Epidermal Growth Factor (EGF) to the frontline of skin care treatments, providing an ultra-advanced skin rejuvenation effect.

BioPlacenta, an anti-aging, skin rejuvenation blend, contains five different growth factors (EGF, IGF-1, Acidic FGF, Basic FGF and VEGF), Acetyl Glutamine amino acid and Vitamin B₉. BioPlacenta is a powerful anti-wrinkle and elasticity enhancer, with deep moisturizing and renewal impact.

Niacinamide

One of the two forms of vitamin B₃, Niacinamide is rich in free-radical fighting antioxidants and rapidly absorbed by the skin, renowned for its protective moisturizing properties. It helps combat signs of aging and tighten the skin's tone while helping to prevent damage from external sources.

Betaine

Known for its moisturizing power and soothing properties, Betaine is a natural humectant, helping to retain hydration for enhanced skin texture and an anti-aging effect. Betaine not only boosts the skin's moisture level but also helps to protect the skin's natural barrier, so the skin remains fortified and hydrated, with a softer, smoother appearance.

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne,
Post-Acne, Couperose & Sensitive Skin,
Lightening & Pigmentation.

Treatment guideline numbers:

29, 30, 31, 32.

The JetCare Boost Series

JetPeel treatments are completed with a powerful boost.

New and improved booster formulas designed to amplify the power of JetPeel infusions.

Each JetCare Boost solution is concentrated with uniquely formulated hyaluronic acid or vitamins, designed to meet different objectives, including hydration and fine line filling, regeneration, firming and glow.

Hydrate
Regenerate
Glow
Tight
Boost set

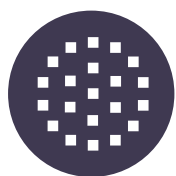

Used for indications:

JetCare Boosts are highly recommended to be used in the final step of all skin treatments, one type per session, as well some of the Scalp & Hair treatments sessions as detailed in the Scalp & Hair Treatment Guidelines.

Hydrate (HA)

State-of-the-art HA for the ultimate filler effect and beautifully smooth skin

Enhance the JetPeel effect with the Hydrate treatment from the JetCare Boost series. Enriched with the PrimalHyal™ Ultrafiller, an advanced technology HA ingredient to rapidly volumize wrinkles. Enjoy visibly smoother skin with one of the most popular products in the JetCare series.

Needle-free wrinkles volumizing

JetCare Boost - Hydrate HA provides a pain-free anti-wrinkle effect with no down-time. Enriched with a unique HA patented ingredient this booster treatment provides age-defying impact for the mid and long term, for instant volumizing and youthful appearance.

Key ingredients

PrimalHyal™ Ultrafiller

Hyaluronic acid (HA) is a key molecule that naturally occurs in the skin, with excellent moisture retention properties to provide a smooth, youthful look. This high-tech and patented HA derivative takes anti-aging to a new level, enhancing penetration of HA thus improving the appearance of fine lines and expression lines.

Niacinamide

One of the two forms of vitamin B₃, Niacinamide is rich in free-radical fighting antioxidants and rapidly absorbed by the skin, renowned for its protective moisturizing properties. It helps combat signs of aging and tighten the skin's tone while helping to prevent damage from external sources.

Betaine

Known for its moisturizing power and soothing properties, Betaine is a natural humectant, helping to retain hydration for enhanced skin texture and an anti-aging effect. Betaine not only boosts the skin's moisture level but also helps to protect the skin's natural barrier, so the skin remains fortified and hydrated, with a softer, smoother appearance.

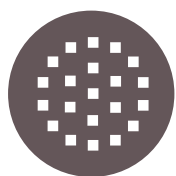

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne,
Post-Acne, Couperose & Sensitive
Skin, Lightening & Pigmentation, Scalp & Hair.

Treatment guideline numbers:

8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 25, 26, 27, 28,
29, 31, Scalp & Hair.

Regenerate (Vitamin A+E)

The way to a beautifully youthful sensation

This vitamin-enriched serum booster is specially formulated to regenerate the skin with the antioxidant power of Vitamins A and E for high performance anti-aging.

A unique booster blend of vitamins & botanicals

This power booster is fortified with regenerating vitamins A and E to harness antioxidant and age-defying effects. Particularly effective for sun-exposed skin, the formula includes a blend of vegetative peptides and proteins that significantly improve skin texture, and an advanced carbohydrate complex which protects the skin barrier for ultimate skin rejuvenation.

Key ingredients

Vitamin A

Vitamin A or retinyl palmitate is known as a strong anti-aging antioxidant which is highly effective in reducing dryness and flaking.

Vitamin E

A known antioxidant, Vitamin E displays effective hydration and repair effects, helping to fortify the functioning of the skin's natural barrier against external damage.

The combined power of Vitamins A and E creates a highly nourishing solution with great antioxidant properties.

Pentavitin®

This 100% natural, plant-based carbohydrate complex is very similar to carbohydrates that occur in the skin, therefore having an effective binding mechanism. This ensures fast, powerful hydration, and a deep, long-lasting supply of moisture to the skin.

Regu-age®

This synergistic blend of patented peptides and proteins demonstrates fast action anti-aging benefits. Containing purified soy and rice peptides, blended with biotech-produced yeast protein, this complex helps to boost tone and radiance.

Roman Chamomile Extract

Roman chamomile is highly antioxidant, helping to protect skin against external causes of damage. Used for thousands of years to calm the skin, the chamomile herb is also a popular remedy to help reduce fine lines and wrinkles for added age-defying action.

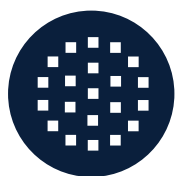

**Used for indications:**

Anti-Aging, Loss of Tone & Wrinkles, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation, Scalp & Hair.

Treatment guideline numbers:

1, 2, 4, 5, 6, 7, 8, 9, 10, 13, 14, 15, 16, 21, 22, 24, 28, 29, 30, Scalp & Hair.

Glow (Vitamin C)

Deliver the glow benefits of vitamin C directly to the skin

An excellent booster for a beautiful glow effect, containing a high concentration of Vitamin C. This unique solution is based on a Vitamin C derivative with superior stability in formulations compared to straight ascorbic acid, making it even more powerful and effective.

Advanced ingredients restore natural glow

Containing a Vitamin C-rich boost, this solution is especially formulated with brightening and anti-aging components. Fortified with natural fruit-based extracts, the JetCare booster serum is the ultimate Vitamin-C experience to brighten both young and mature skin types.

Key ingredients

Stay-C®

An advanced derivative of Vitamin C, Stay-C® demonstrates superior stability compared to other vitamin C ingredients. It converts rapidly to ascorbic acid, penetrating the skin to deliver a powerful glow effect. With intensive antioxidant action, this ingredient helps create improved skin tone for a more even appearance.

Fruit Extract AHAs

This natural fruit-based mix of AHAs improves penetration of JetCare's unique Vitamin C booster. Helping to shed dullness, it brightens the skin and leaves a soft and radiant appearance.

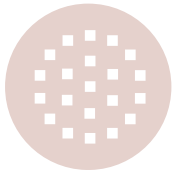

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation.

Treatment guideline numbers:

1, 2, 4, 5, 6, 8, 9, 10, 11, 13, 14, 16, 21, 22, 24, 25, 26, 27, 29.

Tight (Vitamin B Complex)

The firming power of vitamin B

A complex of three Vitamin B derivatives, this power booster delivers effective tightening and hydrating action.

Vitamin B, times 3

One of the most effective ingredients for treatment and relief of common skin concerns, Vitamin B is a highly regarded ingredient in cosmetics and skin care formulas. Researched thoroughly and tested extensively, this JetCare solution comprises the optimal ratio of the various Vitamin B derivatives to provide deep hydration and moisture retention for a firming, tightening effect.

Key ingredients

Pro-vitamin B5 – Panthenol

D-Panthenol helps nourish and add vital moisture to the skin, by sealing in hydration, boosting the skin barrier, and helping to rejuvenate and revitalize skin cells, for an overall age-defying effect.

Niacinamide

One of the two forms of vitamin B₃, Niacinamide is rich in free-radical fighting antioxidants and rapidly absorbed by the skin, renowned for its protective moisturizing properties. It helps combat signs of aging and tighten the skin's tone while helping to prevent damage from external sources.

Biotin – Vitamin B7

Rich in moisturizing and smoothing properties, Biotin nourishes the skin. This nourishing effect is enhanced by the synergistic effect of the combination of Biotin (Vitamin B₇) with Vitamins B₅ and B₃.

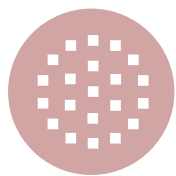

Used for indications:

Anti-Aging, Loss of Tone & Wrinkles, Acne, Post-Acne, Couperose & Sensitive Skin, Lightening & Pigmentation, Scalp & Hair.

Treatment guideline numbers:
