TAVTECH LTD.

The Best You, The Best for our World

JetCare by TavTech is the exclusive range of cosmetic solutions formulated for JetPeel by TavTech's world-renowned aesthetic technology. JetCare Solutions integrate with JetPeel treatments to provide powerful and effective care for a range of skin concerns.

Now, JetCare by TavTech offers a line of products that care not just for skin, but for the planet too: JetCare Green, the eco-friendly alternative.

All the JetPeel benefits, minimal environmental footprint

The JetCare Green eco-friendly line includes four concentrated products exclusively made from natural origin, organic and green certified ingredients. In addition, JetCare Green uses recycled or recyclable packaging. You enjoy the comfort and results of a JetPeel treatment, and the peace of mind of a sustainable aesthetic experience.

- Natural origin ingredients
- Eco-friendly and green raw materials
- Fully biodegradable 100% botanical-based preservatives
- Recycled / recyclable packaging

JetPeel + JetCare Green: Beautiful Skin, Healthy Planet

JetPeel by TavTech is the world's leading jet technology for powerful and effective aesthetic skin treatments. The JetPeel device generates pressurized air accelerated to manipulate liquid into fine misty jet streams, traveling at over 200 m/s (660 ft/s). Applied with an advanced JetPeel by TavTech handpiece, the jet stream exfoliates the outer epidermal layer and gently stretches the skin surface, opening microchannels that allow for noninvasive delivery of nutritive micro droplets deep into the skin.

The same JetPeel Power, Now Green

Following the launches of JetCare and the JetCare Youth mini-line, JetPeel has now released its eco-friendly line: JetCare Green, based on natural, eco-friendly ingredients and formulations.

Now, JetPeel customers all over the world can experience the smooth, youthful results of JetPeel treatments, with eco-friendly 'green' formulas designed for sustainability.

JetCare Green Treatment

JetPeel is suited to all skin types, and is a non-invasive, non-ablative, pain free and pleasant treatment that delivers effective results all year round. Customers worldwide enjoy the pleasant and comfortable JetPeel experience for a range of cosmetic concerns, including skin renewal, anti-aging, sensitive skin, lightening and more.

With JetCare Green, the JetPeel treatment benefits are now available in planet-friendly line of solutions, formulated for the main steps of the JetPeel treatment sequence:

STEP
01

LYMPHATIC MASSAGE with JetCare Green Hydro

The JetPeel treatment begins with a relaxing lymphatic massage that stimulates micro-circulation and helps detoxify the skin.

STEP
02

EXFOLIATION with JetCare Green Exfoliation

Gentle yet thorough, the removal of dead skin cells helps prepare the skin for infusion of nourishing eco-friendly solution in the following step.

STEP
03

INFUSION with JetCare Green Glow or with JetCare Green Peptide Complex

Delivery of nutrients and peptides deep into the skin, where the new and exclusive milky formulations can have the maximum impact for anti-aging, skin rejuvenation and visibly glowing results.

JetCare Green Hydro

JC-GH

Where sustainable JetPeel treatment begins

Every JetPeel treatment begins with Hydro, a water-based formula specially designed to cleanse and prepare the skin for the exfoliation and infusion steps. The solution is applied to the skin via lymphatic massage, delivered with the proven jet technology exclusive to the JetPeel by TavTech handpieces.

JetCare Green Hydro is specially formulated with natural origin and green certified ingredients, ensuring a gentle yet powerful lymphatic massage that is environment-friendly.

Eco-friendly, skin friendly ingredients

Allantoin

Comfrey root extract helps hydrate, exfoliate and smooth the skin surface to restore the skin's natural glow.

Propanediol

Produced sustainably from corn sugar, helps boost moisture and soothe the skin. Propanediol is the world's first 100% bio-based glycol alternative certified by the Natural Products Association (NPA).

Organic Aloe Vera

An antioxidant emollient that rapidly softens the skin and provides antimicrobial action. The powerful calming effect of Aloe Vera is an essential element in the opening stage of the JetCare Green treatment.

Cosphagard® Elbe

A blend of the naturally derived multifunctional Sodium Levulinate and Sodium Benzoate. This blend maintains antimicrobial efficiencies against bacteria, yeasts and molds, and replaces preservatives such as Parabens, MIT and Triclosan

JetCare Green Exfoliation

JC-GE

All the smoothing effects, no eco impact

JetCare Renewal is JetPeel's exclusive and popular exfoliation line, formulated to resurface and prep the skin to receive the care of the Infusion treatment. JetCare Green Exfoliation delivers the same powerful results, now formulated with natural origin ingredients.

The JetCare Green Exfoliation solution is richly concentrated in alpha and beta hydroxy acids (AHAs and BHAs), whose natural exfoliating power is gentle yet effective. And JetCare Green Exfoliation has an ideal pH of 3.5, for effective peeling without any burning, damage or discomfort.

Eco-friendly, skin friendly ingredients

ACB Fruit Mix

Vegan, GMO-free complex of 5 exfoliating botanical extracts rich in 5 natural Alpha Hydroxy Acids (AHAs). Helps boost collagen and repair the skin for a smooth, radiant appearance.

Niacinamide

Vitamin B3 is rich in antioxidants that fight free radicals and help build skin proteins for a firmer sensation. Helps soothe redness and inflammation, and locks in moisture to prevent damage and protect skin against signs of aging.

Extra boost of AHAs

Lactic Acid and Glycolic Acid; and **BHA** - Salicylic Acid

Campo Plantservative

100% botanical-based **preservative** extracted from 2 herb varieties of the Japanese Honeysuckle flower. Delivers microbial and bacterial protection.

JetCare Green Glow

JC-GG

Radiance from nature

A pro-glow trans-epidermal formulation, JetCare Green Glow is an exclusive eco-friendly blend, rich in 3 molecular weights of Hyaluronic Acid to rejuvenate the dermis at different levels and create an even, toned appearance. JetCare Green Glow is uniquely concentrated in Tego® Turmerone, purified natural turmeric extract, renowned for its defensive antioxidant action at the cell level. Formulated for step 3 of JetPeel treatment Infusion JetCare Green Glow is delivered into the skin where the active natural origin ingredients help soothe the signs of aging and enhance radiance.

Eco-friendly, skin friendly ingredients

Tego® Turmerone

Natural purified turmeric extract from organically grown Curcuma longa. Renowned as a powerful antioxidant, helps protect skin from oxidative stress. Ideal for smoothing fine lines, restoring even tone and boosting skin radiance.

Primalhyal 3K™

Hyaluronic acid blend concentrated in 3 molecular weights, providing anti-aging effects at different levels of the dermis.

- 100-300 kDA: Helps boost natural healing processes and the skin's protective defenses in the upper skin layers.
- 20-50 kDA: The ideal size to improve skin functioning and tone the skin for a firmer appearance.
- 5-20 kDA: The smallest HA component penetrates to the deeper skin layers to help rejuvenate from within.

Niacinamide

Vitamin B3 is rich in antioxidants that fight free radicals and helps build skin proteins for a firmer sensation. Helps soothe redness and inflammation, and locks in moisture to prevent damage and protect skin against signs of aging.

Campo Plantservative

100% botanical-based **preservative** extracted from 2 herb varieties of the Japanese Honeysuckle flower. Delivers microbial and bacterial protection.

JetCare Green Glow - this new and uniquely formulated milky serum must be **well shaken prior to use**, and **handpieces must be cleaned after each use** according to TavTech's handpiece cleaning instructions

JC-GPC

JetCare Green Peptide Complex

Skin rejuvenation, the natural way

JetCare Green Peptide Complex is an infusion concentrated in Argireline®, a natural origin peptide blend created with eco-friendly chemistry principles to assure enhanced results.

JetCare Green Peptide Complex is formulated to deliver natural anti-aging effects, helping to smooth fine lines and soften muscle contractions for a more youthful appearance. With antioxidant-rich Hyaluronic acid and vitamin B3, JetCare Green Peptide Complex provides the advanced JetPeel anti-aging boost with the sustainable and eco-conscious approach of JetCare Green.

Eco-friendly, skin friendly ingredients

Argireline® Amplified Peptide Solution

Next generation multi-active peptide based on 'green chemistry'. Helps slow down the natural aging process in the epidermal layers, while relaxing facial muscles for a smoother, even appearance.

Primalhyal 3K™

Hyaluronic acid blend concentrated in 3 molecular weights, providing anti-aging effects at different levels of the dermis.

- 100-300 kDA: Helps boost natural healing processes and the skin's protective defenses in the upper skin layers.
- 20-50 kDA: The ideal size to improve skin functioning and tone the skin for a firmer appearance.
- 5-20 kDA: The smallest HA component penetrates to the deeper skin layers to help rejuvenate from within.

Niacinamide

Vitamin B3 is rich in antioxidants that fight free radicals and helps build skin proteins for a firmer sensation. Helps soothe redness and inflammation, and locks in moisture to prevent damage and protect skin against signs of aging.

Natura-tec Plantsil™

A hydrogenated ester derived from olive. It leaves a unique soft sensation and a long-lasting silky feel satiny effect.

Campo Plantservative

100% botanical-based **preservative** extracted from 2 herb varieties of the Japanese Honeysuckle flower. Delivers microbial and bacterial protection.

JetCare Green Peptide Complex - this new and uniquely formulated milky serum must be **well shaken prior to use**, and **handpieces must be cleaned after each use** according to TavTech's handpiece cleaning instructions

Remarks			Leave the JetCare Green Exfoliation for 5 minutes then wash with 8 ml of JetCare Green Hydro with TripleJet handpiece at 45°-60° angle			
Post-use instruction					Clean handpiece after use	Clean handpiece after use

The JetPeel System: Trio of Excellence

Three powerful components comprise the JetPeel system:

JetPro Devices

The iconic JetPro by TavTech devices generate pressurized air accelerated to manipulate liquid into fine misty jet streams, traveling at speeds of over 200 m/s and pleasantly impacting the skin at a pressure of 95 p.s.i.

The advanced models JetPro Duo by TavTech and the portable JetPro ToGo by TavTech combine the jet technology of JetPeel with Red (620-630 nm) and Blue (460-470 nm) LED's in a simultaneous treatment for enhanced and powerful results.

JetPeel Handpieces

The advanced, patented JetPeel handpieces used to apply the jet streams to the skin are available in several versions, suitable for different treatment types and skin concerns. The jet stream exfoliates the upper epidermal layer (stratum corneum) and then gently stretches the skin surface, opening microchannels that allow for non-invasive delivery of nutritive micro droplets deep into the skin.

JetCare Liquid Solutions

JetCare solutions are uniquely formulated for a range of skin concerns and needs, including Anti-Aging, Renewal, Soothing, Lightening, Hydrate, Tightening, Glow, Scalp & Hair, as well as JetCare Youth for young skin, JetCare Green exclusively formulated with natural origin ingredients and raw materials, and more.
