

JetCare Med by TavTech

Osmolyte-enriched for Invigorating Collagen and Elastin

Re-ignite your clinic results

Introducing JetCare Med by TavTech

- JetCare Med is an advanced line of JetPeel treatment infusions, specially developed by TavTech for use in physician clinics
- The clinically-proven line includes 4 infusions and 1 booster infusion to target key skin concerns
- Based on an advanced blend of osmolytes, working in synergy to invigorate collagen and elastin
- Each infusion product is enriched with additional unique ingredients, specifically formulated to deliver the desired outstanding results

Clinically Proven for Outstanding Results

- A clinical study of JetCare Med and JetPeel treatment was conducted at JS Hamilton labs in Poland
- The subject pool included women and men, all skin types (dry, oily, normal, combination), and both sensitive and non-sensitive skin
- Skin testing was carried out on day 0 (before 1st treatment), day 8 (after the 3rd treatment), day 28 (4 weeks after 1st treatment), and day 56 (8 weeks after 1st treatment)

On day 56, results showed:

26%

**improvement
in skin density**

16%

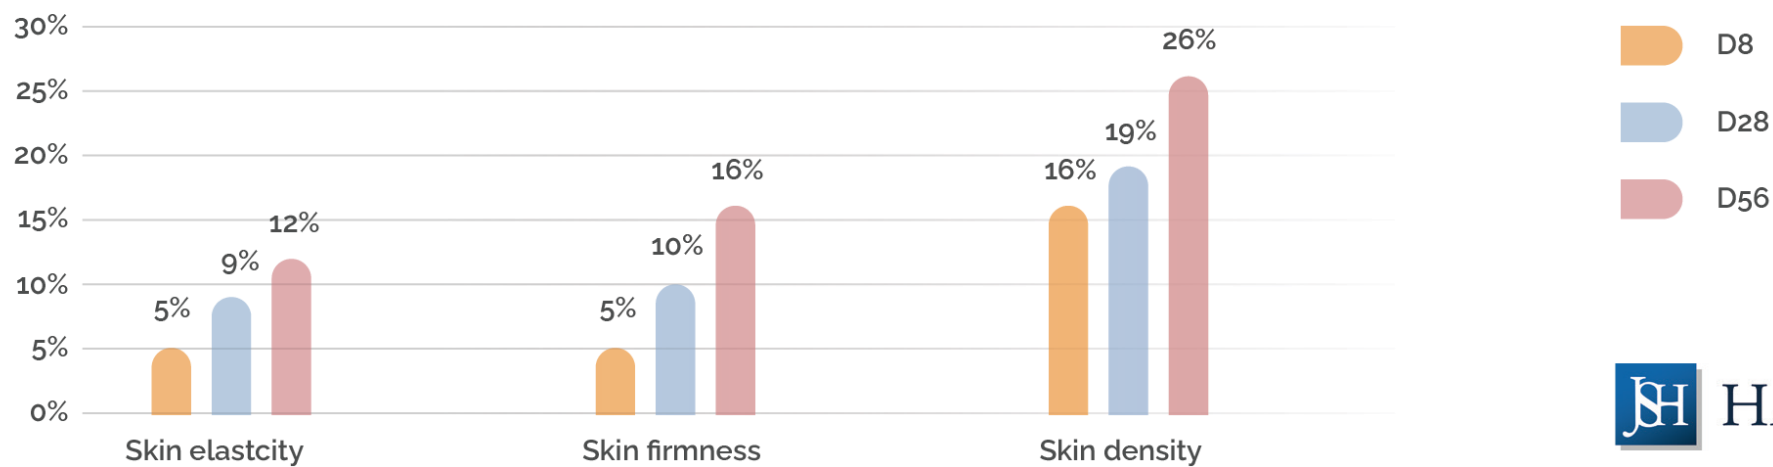

**improvement
in skin firmness**

12%

**improvement
in skin elasticity**

REPORT No. 416345-1/24/GDA/PK

Summary of the improvements in skin **elasticity**, **firmness** and **density** obtained after 3 JetPeel sessions on D8 (eight days after 1st treatment), D28 (28 days after 1st treatment) and D56 (56 days after 1st treatment)

JetCare Med products were **well-tolerated** by all skin types, demonstrating safety and efficacy for sensitive skin. **All results show statistical significance.**

Skin Density Improvements

Measured with Dub® Skin Scanner manufactured by TPM Taberna Pro Medicum GmbH

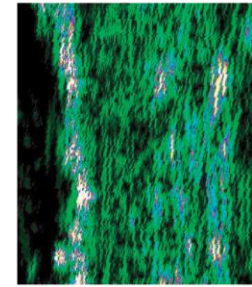

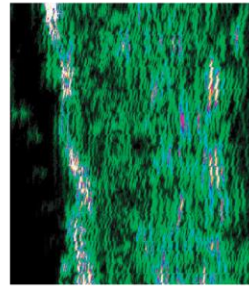

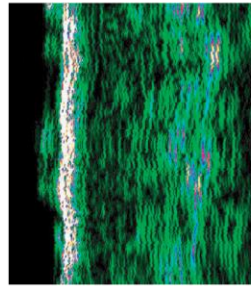

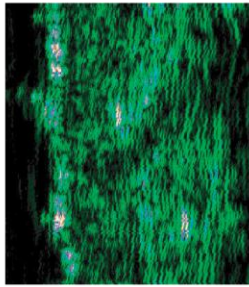

Before (D0)

After 3 procedures (D8)

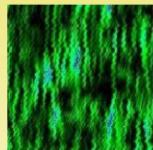

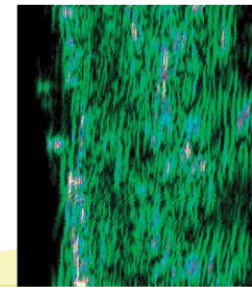

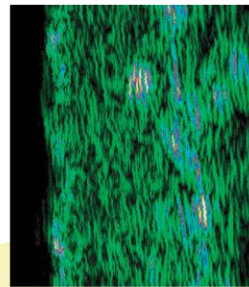

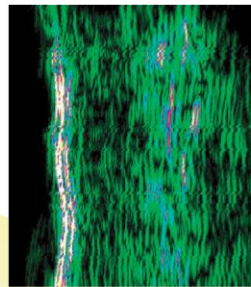

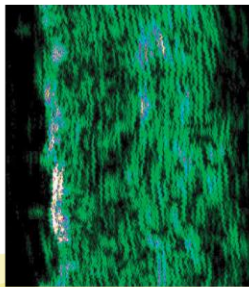

After 28 days (D28)

After 56 days (D56)

Cutting-Edge JetPeel for Clinic Success

Provide the JetCare Med treatment experience in your clinic, with:

- JetPro by TavTech: the world-leading aesthetic devices for jet pressure technology
- MDJet by TavTech handpiece: exclusively developed for use in JetCare Med treatments
- JetCare Med by TavTech infusions/boost infusion: delivered to the skin via the JetPro devices and MDJet handpiece, providing exceptional treatment results, enhancing patient satisfaction, and boosting your clinic performance

MDJet: The Exclusive Handpiece

- JetPeel handpiece specially designed for JetCare Med treatments
- Only handpiece that delivers the ultimate JetCare Med results
- JetCare Med infusions come in pre-packed 5 ml syringes that directly screw onto the MDJet handpiece
- Physicians can swap syringes quickly and easily, instead of using tubes and bottles as with other JetPeel treatments
- Ensures a seamless, productive treatment flow

JetCare Med Formulation: Concentrated Power

- JetCare Med infusions and boost infusion are uniquely formulated with a powerful cocktail of osmolytes
- Osmolytes are organic molecules with lower molecular weights that protect peptides and improve protein stability
- This leads to improved hydration and invigorated collagen and elastin for smooth, youthful looking results
- JetCare Med formulas also contain propanediol, a 100% bio-based glycol alternative to enhance moisture and soothe the skin, and unique combinations of targeted ingredients to deliver the desired treatment results

Osmolytes: The Synergy of Beautiful Skin

JetCare Med products contain over 5.5% osmolyte blend, based on three osmolytes working in synergy to invigorate collagen and elastin, and support powerful aesthetic results.

- **Betaine:** Natural humectant that helps strengthen the skin barrier, maintain moisture balance, and support long-lasting skin hydration
- **Xylitol:** A prebiotic moisturizer that enhances the skin's microbiome profile, helping to fortify the skin barrier and supporting powerful hydration
- **Inositol:** A glucose isomer that improves fibroblasts metabolism, helping to improve oxygenation, boost elasticity, and fight signs of fatigue

The JetCare Med Infusions

- **JetCare Med Refill Infusion** for skin filling
- **JetCare Med Relax Infusion** for muscle calming
- **JetCare Med Revitalize Infusion** for anti-aging
- **JetCare Med Relight Infusion** for lightening & brightening
- **JetCare Med Refine Boost Infusion** for final lift & glow

JetCare Med Refill: For skin filling

Smooths fine lines, soothes facial muscles, and invigorates the skin's natural collagen, for firm, even, and youthful-looking skin.

Contains osmolytes, propanediol, and:

- **BioPeptide CL – 5%:** Anti-wrinkle tripeptide of the collagen chain that helps to energize and invigorate collagen
- **Argireline® Amplified Peptide Solution C – 5%:** Next generation multi-active peptide that helps slow the natural aging process
- **Feminage – 2%:** Helps protect skin elasticity and maintain the integrity of the dermal-epidermal junction
- **PrimalHyal™ UltraFiller:** Patented Hyaluronic Acid derivative enhances HA penetration in the skin, improving the appearance of fine lines
- **Primalhyal 3K™:** Hyaluronic acid blend concentrated in 3 molecular weights, providing anti-aging effects at different levels of the skin

Argireline® is a trademark of Lipotec S.A. or its affiliates

JetCare Med Relight: For skin lightening

Lightening infusion rich in vitamin C to help brighten the complexion and soothe and protect against the dulling effects of free radicals and UV damage.

Contains osmolytes, propanediol, and:

- **Ascorbyl Glucoside AA2G – 5%:** Stable vitamin C derivative that lightens the skin, helping to fight free radicals, inhibit melanin synthesis, and enhance collagen production

JetCare Med Relax: For muscle calming

Formulated to calm the muscles, helping to create a smooth, clear skin texture and appearance. Enriched with calming hydrating ingredients and age-defying peptides to restore the relaxed look of youth.

Contains osmolytes, propanediol, and:

- **Argireline® Amplified Peptide Solution C – 10%:** Next generation multi-active peptide that helps slow the natural aging process
- **Neutrazen™ – 2.5%:** Advanced neurocosmetic biomimetic lipopeptide, based on three amino acids that deliver vital calming and anti-inflammatory action
- **Allantoin:** Comfrey root extract helps hydrate, exfoliate, and smooth the skin surface to restore the skin's natural glow
- **Dipotassium Glycyrrhizate:** Anti-inflammatory ingredient extracted from liquorice root that helps to regulate sebum, and soothe and calm the skin

Argireline® is a trademark of Lipotec S.A. or its affiliates

JetCare Med Revitalize: For anti-aging

Anti-aging treatment rich in peptides and specially formulated for mature, fragile skin.

With wrinkle-smoothing and regenerating ingredients that deliver a powerful rejuvenating sensation.

Contains osmolytes, propanediol, and:

- **Matrixil® 3000 – 10%:** Powerful double-peptide blend for anti-wrinkle action, helping to boost tone and elasticity. Rich in matikines that promote effective skin repair and regeneration

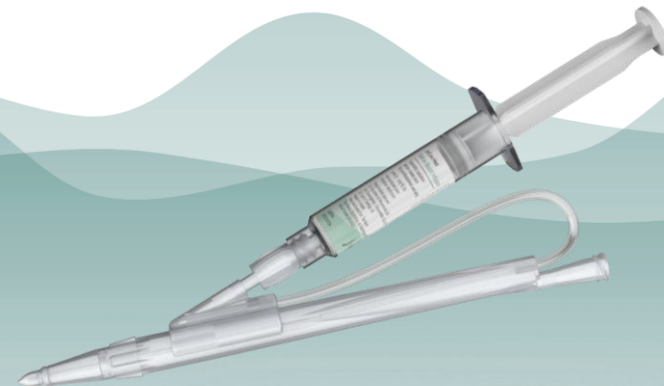

JetCare Med Boost Infusion: For final lift & glow

Formulated for the final step of JetCare Med treatment, based on a power blend of hydrating ingredients and vitamins to boost the radiance impact.

Contains osmolytes, propanediol, and:

- **Detoxi-Look® – 3%:** Based on Everlasting and Daisy flowers, rich in flavonoids, polyphenols, and saponins, that detoxifies the enzymatic system and regulates microcirculation
- **Keratoline C:** Enzymatic protease-based exfoliant that helps to remove dead skin cells and promote cell renewal
- **D-Panthenol – 1.8%:** Deeply nourishing vitamin B₅ helps to lock in moisture, protect and strengthen the skin's natural barrier
